Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This house is located on a broad, level site, back off Old Town Road. It faces west, toward the intersection of Old Town and Huntingtown Roads. Set on a concrete block foundation, the house is a two-story four-square, built in the early decades of the twentieth century. It is a framed and weatherboarded structure with a pyramidal roof. There is a hipped dormer in each of the faces of the roof. The two-bay facade indicates a side-passage plan. There is a one-story hipped-roof porch supported by Doric columns that are connected by rails and balusters. This porch shelters only the facade. A rear one-story extension is early. There are two interior brick chimneys. The yard is defined by a low wall and intermediate piers composed of concrete blocks that are molded to look like ashlar.
